### Solutions that **CONNECT**

Fast, reliable **Comcast Business Internet**

- Backed by nation's largest **Gig-speed network**. With enough bandwidth to power all your devices.

**Automatic 4G LTE backup** for complete reliability – even if the power goes out. Keep essential devices powered and connected with up to 8 hours of battery backup.

**Cloud-based voice solutions**

- Advanced features including readable voicemail, automated attendant, one-touch conference calling.
- Voice Mobility to stay connected while out of the office.

### Solutions that **PROTECT**

1080p HD **video monitoring** with smart insights

- Cloud storage to keep your footage safe and secure.
- Professional installation.
- See all your locations anytime, anywhere with mobile app.

### Solutions that **ENHANCE**

**Advanced Business WiFi:** Network scheduling, bandwidth control, guest insights and analytics, managed from anywhere.

Top TV programming. On every device. Especially yours.

- Enhanced searching with **X1 for Business**.
- **Stream** live TV to any device, removing the need for multiple TVs.
