

# Complete Solutions for Your Religious Organization

COMCAST  
BUSINESS

AUTHORIZED  
CONNECTOR

You know Comcast Business has faster Internet, but our solutions go beyond fast with so much more. See how our full suite of solutions can make a difference for your religious organization.

## Comcast Business Internet Solutions

Deliver unrelenting speed to your religious organization, with automatic 4G LTE backup for complete reliability and advanced WiFi to keep your staff and congregants connected.

### Keep Attendees Connected with WiFi Pro

Promote upcoming events, religious study groups, and more when attendees log on to your WiFi. Network scheduling allows you to turn off WiFi during services, and separate business and public WiFi connections let you maintain internet speeds.

### Create a Welcoming Environment with Comcast Business TV

Provide your religious leaders with up-to-date news. Add to your organizations ambiance with commercial-free digital music channels. Keep children entertained and find appropriate content easier than ever with X1 for Business.

### Stay Connected with Connection Pro

Run essential organization functions and continue streaming your services in the event of a power outage or unforeseen circumstances with automatic 4G LTE wireless backup.

### Ensure Peace of Mind with Comcast Business SmartOffice™

Keep an eye on your premises and your organization's attendees from anywhere on any device, with an advanced video monitoring solution.

### Engage the Community with Fast and Reliable Internet on the Gig-Speed Network

Get fast, secure and reliable internet access for sharing news, information and updates online. Livestream services to those who cannot attend. Attract new members with an appealing and fully functional website.

### Be Anywhere with Comcast Business Voice Solutions

Stay connected to congregants, the community and volunteers with your business number, even when you're away from your place of worship. Advanced features let you create a customized greeting and easily route incoming calls.
